(NEW YORK, NY — November 23, 2015) Falcon Power reopens a spectacular 6500 square foot Hoboken space with *Urban Landscapes: Darkness & Light*, a curated exhibition documenting the often unseen underpinnings of the urban environment, featuring two prize-winning artists.

With works by painters **Tim Daly** and **Roy Kinzer**, the exhibition runs from December 5, 2015 – January 4, 2016, and presents a study into the nature of the urban environment, its dark underbelly, decaying infrastructure and hidden beauty. The result is art that resonates with both personal significance and historical meaning.

Curated by Roy Kinzer, *Urban Landscapes: Darkness & Light* offers an opportunity to view each artist's unique insight and practice.

This exhibition is supported by Hoboken Improvement, LLC.
